

# WIRELESS CHARGING

Canadian Device Compatibility - As of Feb 1, 2021

## Important Notes

**Not all devices are compatible with all vehicles.**

<sup>1</sup> Device is only certified to work in the following 2018 vehicles:

- Buick Enclave
- Cadillac Escalade/Escalade ESV
- Chevrolet Bolt, Silverado LD/HD, Suburban, Tahoe
- GMC Sierra LD/HD, Terrain, Yukon/Yukon XL

<sup>2</sup> Device may be too large for wireless charging in some vehicles.

<sup>3</sup> Uncertified devices may work, but have not yet been tested.

Cases used on phones with built-in wireless charging capability may reduce charging performance.

Devices without built-in wireless charging may be used by applying a compatible wireless charging case.

## Instructions

Remove any other objects from the charger.

With the vehicle ignition in Run, Accessory, or Retained Accessory Power, place the phone in the designated wireless charging pocket or mat.

If the device does not charge, remove the device from charger for 3 seconds and rotate the device 180 degrees.

An icon will display on the infotainment screen if the device is charging, as well as on your device.

## Wireless Charging Availability for 2021 Model Year

CHEVROLET	BUICK	GMC	Cadillac
Malibu	Encore GX	Terrain	CT4
Bolt	Envision	Acadia	CT5
Camaro	Enclave	Canyon	XT4
